SOME RULES AND REGULATIONS

Vocational School of Higher Education Students: Students must have a minimum Cumulative Grade Point Average (CGPA) of 2.00 and have completed all the courses with a grade of at least DD/S in the program in order to graduate. The maximum education period is 4 academic years.

Undergraduate Students: Students must have a minimum Cumulative Grade Point Average (CGPA) of 2.00 and have completed all the courses with a grade of at least DD/S in the program in order to graduate. The maximum education period is 7 academic years.

Master's Students: Master's with Thesis: Students must complete the minimum required course load specified by the Department in at least four consecutive semesters and at the end of this period, must have a Cumulative Grade Point Average (CGPA) of at least 3.00. Students must enter their thesis examination no later than the end of the sixth semester after beginning the program. Students are required to take at least 7 credit courses (at least 21 credits).

Master's non-Thesis: Students must complete the minimum required course load specified by the Department in at most six consecutive semesters and at the end of this period, must have Cumulative Grade Point Average (CGPA) of at least 3.00. Students are required to take at least 10 credit courses (at least 30 credits).

Doctoral Students : Students must complete the required number of courses specified by the Department within at least four consecutive semesters, maintain a minimum Cumulative Grade Point Average (CGPA) of 3.00, pass doctoral Qualifying Examination and have the Dissertation Defense no later than the 12th semester (including additional semesters) after beginning the program. The minimum course load is 7 credit courses (at least 21 credits).

The credit system was changed at the beginning of the Fall semester of the academic year 1990-1991. In addition, some modifications have been made in the undergraduate and graduate rules and regulations since the beginning of Spring 1988-1989. Therefore, there are some differences in the terms of standing used on the transcript.

On the date on which the new regulations were published, if the student who was currently studying at METU faced with being dismissed according to the latest regulations, his status could be considered on the basis of the previous regulations. Items which were in favor of the students were applied.

Erasmus Transferred Courses(ET): These courses offered at IUE are considered as equivalent to the courses taken in the participating universities abroad within the context of Erasmus Program and cooperation agreements. Please see the attached transcript for the details of the courses offered by the universities abroad.

*This indicates grades of repeated courses and these courses are not counted in computation of CGPA.

**This indicates any course which replaces a failed elective course or a withdrawn elective course in order to satisfy academic requirements. For these courses only the grade and credit of the latter course is taken into consideration in calculating CGPA.

- The minimum passing grade is DD for all undergraduate and associate degree programs; CC for all master programs; CB for all PhD programs.
- P, S, U, NI, EX, W grades are not to be incorporated into students GPA or CGPA.

Good Academic Standing at Undergraduate Programs

Students whose CPGA and GPA are at least 2.00 at the end of a semester are considered as "Satisfactory". Students with CGPA of at least 2.00 and GPA between 3.00 - 3.49 are designated as "Honor", students with CGPA of at least 2.00 and GPA of at least 3.50 are designated as "High- Honor" for that semester.

Poor Academic Standing at Undergraduate Programs

a- Undergraduate students with CGPA between 1.80-2.00 are regarded as 'Conditional Pass' because they fail to meet the minimum acceptable performance.

b- At the end of an academic year, students with CGPA below 1.80 are regarded as "On Probation". These students are required to repeat the previous courses until they raise their CGPA to 1.80. However, students may not repeat the courses in which they obtained a CC or higher grade. These students, with their advisor's consent, are allowed to register in courses at the same or higher level. The number of such courses registered can not exceed the number of courses with a grade CC or higher.

SOME RULES AND REGULATIONS

Undergraduate Students

Students must have maintained a minimum Cumulative Grade Points Average (CGPA) of 2.00 and must have completed all the courses of their program with at least a grade of DD/S to graduate.

Master's Students

Master's Degree With Thesis: It requires the completion of at least 7 courses which are 21 credits minimum, a seminar course, and a thesis. The students satisfying these requirements with a CPGA of at least 3.00, must have prepared a master thesis under the supervision of their advisor. The students whose thesis are accepted as satisfactory and succeeded in the thesis examination are able to graduate.

Master's Degree Without Thesis: It requires the completion of at least 10 courses which are 30 credits minimum, a seminar course, and a term project.

The students satisfying these requirements with a CPGA of at least 3.00 are able to graduate.

PhD program: It requires the completion of at least 7 courses which are 21 credits minimum, a proficiency exam, a thesis proposal and completion of a doctoral thesis. The students who are accepted to PhD program with bachelor's degree are required to take 14 courses which are 42 credits minimum in addition to other requirements.

This diploma supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES. The purpose of the supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc.). It is designed to provide a description of the nature, level, context, content and the status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgments, equivalence statements or suggestions about recognition. Information in all eight sections should be provided. Where information is not provided, an explanation should give the reason why.

1. INFORMATION IDENTIFYING THE HOLDER OF THE QUALIFICATION

- 1.1. Family name(s) :
1.2. Given name(s) :
1.3. Place and date of birth : AFYON/ÇAY,
1.4. Student identification number :

2. INFORMATION IDENTIFYING THE QUALIFICATION

- 2.1. Name of the qualification: Bilgisayar Mühendisliği, Lisans (Computer Engineering, Bachelor of Science)
2.2. Main field(s) of study for the qualification: Faculty of Computer Sciences; Computer Engineering
2.3. Name and status of awarding institution:
İzmir University of Economics, "Foundation University"
İzmir Ekonomik Üniversitesi, Vakıf Üniversitesi
2.4. Name and status of institution administering studies:
same as 2.3
2.5. Language(s) of instruction/examination: English

3. INFORMATION ON THE LEVEL OF THE QUALIFICATION

- 3.1. Level of qualification: Bachelor's Degree
3.2. Official length of programme: 4 years (excluding one year of English preparatory school), 2 semesters per year, 16 weeks per semester, total 4 weeks Summer Training.

The work load of students during educational period is approximately 60 hours per week.

- 3.3. Access requirement(s):
High school diploma,
Placement through a centralized national university placement examination,
Certificate of IUE English Proficiency or TOEFL score of 520; or equivalent.

4. INFORMATION ON THE CONTENTS AND RESULTS GAINED

4.1. Mode of study: Full-time

4.2. Programme requirements:

Students must have a Cumulative Grade Points Average (Cum.GPA) of not less than 2.00/4.00 and have completed all the courses with at least a letter grade of DD/S in the program in order to graduate.

Objectives:

- To provide an understanding of the fundamental knowledge to practice computer engineering, including its scientific principles, analysis, and engineering design with special emphasis on the relationships between physical, electronic, architectural and software aspects.
- To train computer engineers in hardware and software trade-offs in design, interactions between architecture, computer systems software and hardware design, including microcomputers, database systems and networks of computers.
- To develop analytical and logical thinking skills as well as theoretical and laboratory skills required for engineering practice.

4.3 Programme details and the individual grades/marks obtained*:

Code	Title of Course	Course Category	Grade	Credit	ECTS Credit
001	English Preparatory Program	Required Course	S	0.0	0.0
Semester I					
CS101	Introduction to Computer Sciences	Required Course	BA	3.0	4.0
CS115	Introduction to Programming	Required Course	AA	3.0	5.0
CHEM100	Chemistry	Required Course	AA	3.0	4.0

Total Credits : 153

*The actual registration to the courses might be different than indicated in the transcript since in this supplement the courses are distributed into eight semesters with regard to the first digit of the corresponding course code, i.e.: ENG102 into 2nd semester of the 1st year.

4.4 Grading Scheme and Grades

For each course taken, the student is given one of the following grades by the course teacher. The letter grades, grade points and percentage equivalents are given below.

Percentage	90-100	85-89	80-84	75-79	70-74	65-69	60-64	50-59	49 and below
Course Grade	AA	BA	BB	CB	CC	DC	DD	FD	FF
Grade Points	4.00	3.50	3.00	2.50	2.00	1.50	1.00	0.50	0.00

Other Grades: I: Incomplete, S: Satisfactory Completion, P: Satisfactory Progress, U: Unsatisfactory, EX: Exempt, NI: Not Included, W: Withdrawn, NA: Not Attended

Grade Point Averages: The student's academic standing is calculated in the form of a GPA and Cum.GPA out of a scale of 4.00 and announced at the end of each semester by the Registrar's Office. A student's GPA is obtained by multiplying the grade points of the final grade by the credit hours and divided by the total credit points earned in that semester. The Cum.GPA is computed by the ratio of total grade points earned by the total credit points earned up to and including that semester.

4.5 Overall Classification of the qualification:

Cum. GPA : 3.81

Final Grade of Degree : "High Honour"

Relative RANK : 4 of 39

5. INFORMATION ON THE FUNCTION OF THE QUALIFICATION

5.1. Access to further study:

May apply to master and doctorate programs.

5.2. Professional status conferred:

This degree enables the holder to exercise the profession.

8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

The basic structure of the Turkish National Education system consists of four main stages as pre-school education, primary education, secondary education and higher education.

Pre-school education consists of non-compulsory programmes whereas primary education is a compulsory 8-year programme for all children beginning from the age of 6. The secondary education system includes "General High Schools" and "Vocational and Technical High Schools".

Higher education is defined as all post-secondary programmes with a duration of at least two years. The system consists of universities (state and foundation) and non-university institutions of higher education (police and military academies and colleges). Each university consists of faculties and four-year schools offering Bachelor's level programmes, the latter with a vocational emphasis, and two-year vocational higher schools offering short cycle (Associate's) level programmes of a strictly vocational nature.

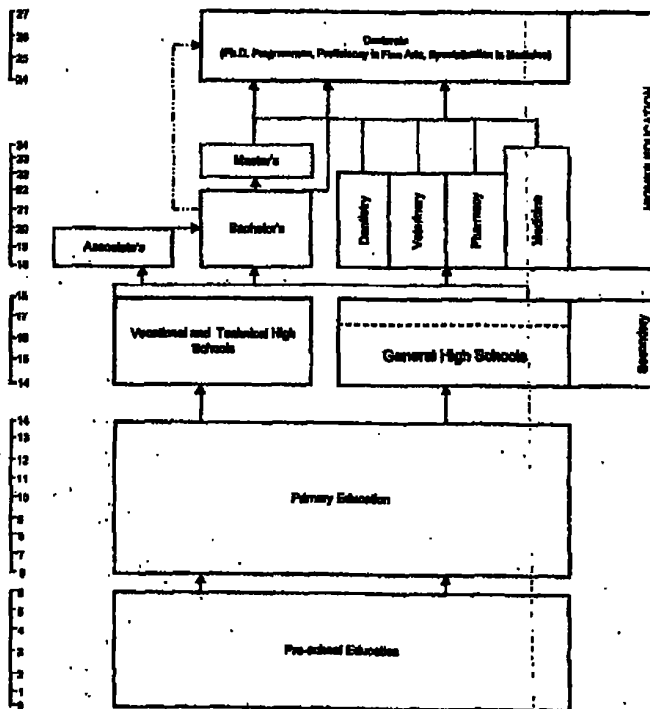

The Higher Education Law No. 2547 is the main law, which governs the higher education in Turkey. All universities (both state and foundation) are subject the same law and regulations/rules. All state and foundation universities are founded by Law.

Admission to higher education is based on a nation-wide Student Selection Examination (ÖSS). The examination is held once a year and is administered by the Student Selection and Placement Center (ÖSYM). Candidates gain access to institutions of higher education based on their composite scores consisting of the scores on the selection examination and their high school grade point averages.

Graduate level of study consists of the Master's Degree (Yüksek Lisans Diploması) and the Doctoral Degree (Doktora Diploması). There are two types of Master's programmes: with and without a thesis. The Master's programmes with a thesis consist of a minimum of seven courses, one seminar course, and thesis. The duration of the Master's programmes with a thesis is two years. Non-thesis Master's programmes consist of a minimum of 10 courses and a semester project. The duration of the non-thesis Master's programmes is one and half years. Doctoral programmes have a duration of four years which consists of completion of courses, passing a doctoral qualifying examination, and preparing and defending a doctoral dissertation. Medical specialization programs are equivalent to doctoral level programmes and carried out within the faculties of medical schools with hospitals.

The Higher Education System is regulated by the Council of Higher Education (Yüksek Öğretim Kurulu-YÖK). Established in 1981, the Council regulates the activities of higher education institutions with respect to research, governing, planning and organization.

GENERAL STRUCTURE OF THE TURKISH EDUCATION SYSTEM

MS Since 2003, the Bachelor's degree holders whose performance at Bachelor's level is exceptionally high can enroll directly to the Doctoral level programmes.
